Free-Standing Ventless Recirculating Hood

Model FSH-2

- The free-standing design allows you to add deep fryers in the cook line without the need for expensive kitchen modifications or the hassles of installing, or expanding an existing conventional ventilation hood.
- No venting to outside necessary. Generally, can be used where traditional hood solutions are prohibited or too costly.
- Models for 1-phase or 3-phase power available. 3-ph model features a built-in, interlocked, 50A max, appliance power receptacle in the hood base.
- UL listed for use with approved appliances (**fryers only**) and features Giles' proven 3-stage air cleaning system, for capturing and removing grease-laden cooking vapors. Listed to **UL-YZCT (-7 Canada) and complies with ANSI/UL-710B**.
- Accommodates fryers from 10" to 24" wide; specified brackets center appliance position under hood.
- Low-profile exhaust air diverter minimizes required ceiling height clearance.
- Hood features factory-installed, self-contained, **Ansul® R102 Wet Chemical Fire Suppression System**, consisting of *Automan* release mechanism, 1-1/2 gallon tank, piping, appliance/plenum nozzles, detector link brackets and cable conduit. **Customer shall provide for final field installation, set-up, charging and commissioning ... must be performed by an authorized Ansul® Distributor/Dealer. Not included with hood purchase.**

Design Features

Ventless Hood 3-Stage Air Cleaning:

- Stage 1** - Stainless steel baffle filter traps largest grease particulate.
- Stage 2** - Sustainable Electronic Air Cleaner (E.A.C.) captures & collects fine grease particulate on fins in the cell with electrostatic action.
- Stage 3** - Disposable charcoal filter helps control cooking odor in the exhausted air.

Standard Features:

- Complete filter set.
- Built-in fire suppression system.
- Built-in appliance power receptacle on 3-ph models.
- **PUSH-TO-START** power switch ... hood must be manually restarted after power interruptions, to provide power to appliance underneath.
- Adjustable leveling legs.
- Low-profile exhaust air diverter ... reduces required ceiling clearance.
- Built-in filter cleaning reminder feature ... helps user maintain optimum hood performance.
