**Products For Cleaning  
Maintenance &  
Consistent Food Quality**

PROVEN & TRUSTED SINCE 1952

# Drive Profits Into The Fast Lane With A Clean Machine

Don't let contaminated cooking oil hurt your bottom line. With the right cleaning and filter products, clearing out grease and crumbs and replacing oil is a fast & easy process. This helps you maximize your operation's performance and sales potential while protecting your food quality.

We offer the Fryer Pot Cleaner, Filter Powder, Filter Papers, Filter Screens and Oil Removal Equipment you need to run at peak efficiency.

Portable and efficient unit with enough volume to hold waste oil from two (2) medium size fryers (approx. 80 lbs).

GOC

Time & money-saving solution to speed up fryer maintenance.

BOC-10  
BOC-14

## Giles Oil Caddy

The versatile GOC Waste Oil Caddy lets you safely remove used cooking oil from fryers and move it to a designated disposal site.

- Manually operated pump with no need for power cords and electrical outlets.
- Pump operates in either direction. Turn in one direction to discharge from tank and in the opposite direction for suction.
- Durable stainless steel construction.
- Large 8" wheels makes maneuvering and handling easy when full.

## Boil Out Caddy

The Giles Boil Out Caddy allows you to conveniently drain your used boil out solution from your fryers after cleaning & easily transport it to a floor drain or designated area for safe disposal.

- 2 different sizes/capacities, **BOC-10** and **BOC-14**.
- Drain time for BOC-10 = 4 minutes. BOC-14 = 6 minutes.
- Fold down handle for compact storage.
- Stainless steel construction with durable casters for easy portability.
- Oversized 3/4" valved drain outlet for fast emptying.
- Baffle system minimizes liquid sloshing and spillage.

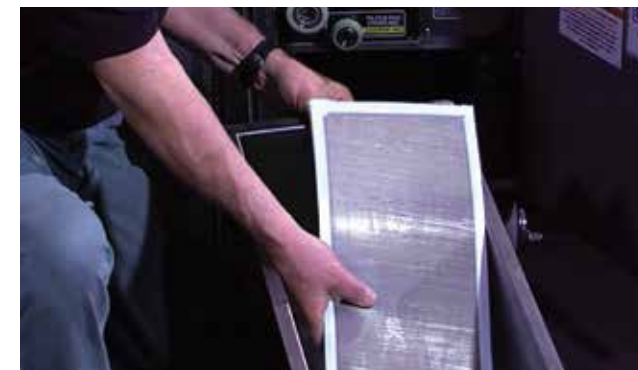

## Giles Fryer Cleaner/Degreaser (Boil-Out)

Easy to use fry pot cleaner. Simply fill pot with water, add boil-out powder, heat to 200° for 30 minutes. Cuts grease and carbon deposits. Non-foaming.

## Giles Fryer Filter Powder

Our fryer filter aid helps remove soluble impurities from cooking oil when filtering. Extends useful oil life; improves cooking performance and food flavor. Sold in easy-to-use pre-measured packets.

## Giles Stainless Steel Filter Screen For Fryers

A durable, fine mesh, stainless steel, filter screen is designed for use in Giles fryers as the perfect replacement for disposable paper filter media.

- Filter screens are cleanable and reusable.
- Provides long term cost savings and reduces your kitchen waste stream.
- Made from woven mesh, 316L stainless steel wire with a 115 micron retention rating.
- Filter edges are laser fused to prevent fraying.
- Available in a wide variety of sizes to fit most Giles fryer models.

## Ensure The Cooking Performance And Flavor Customers Demand

Maintaining a clean fryer oil supply can have a dramatic, positive impact on your operation. Don't let a simple procedure hold back your business goals.

## Giles Filter Paper Media For Fryers

Our paper filter media is made specifically for use in the Giles Fryer filtration system.

- 35-micron retention rating for top performance to remove crumbs and fine cooking residue from your cooking oil during the filtering process.
